

Project Update: Team Classifier

<u>Complete:</u>	<u>In Progress:</u>	<u>Not Started:</u>
Updated Project proposal document to implement the review comments.	Exploratory Data Analysis	Place the data into proper data structures
Identification of the dataset	Clean, Parse and fix class imbalance	Develop model on train dataset
		Anomaly / Outlier Detection

So far no challenges are being faced.

Steps done so far for clean, parse and fix class imbalance for all reviews:

1. Tokenization
2. Remove punctuation
3. Remove stop words
4. Lemmatization

Initial feature extraction steps for all reviews:

1. Word count
2. Character count
3. Capital letters count
4. Digit count
5. Punctuation count
6. Sentiment Score
